

# Grand Adventure Leadership Camps

Thank you for your interest in Grand Adventure Leadership Camps!

Do you know someone or personally have a special talent that would fit with our camps? Grand Adventure Leadership Camps is always looking for community members who can share their skills with our campers. If your business or organization would like to be a part of Grand Adventure Leadership Camps please email Ben Bolock at [bbolock@grandvuepark.com](mailto:bbolock@grandvuepark.com).

Camp descriptions will be updated as more organizations confirm their dates.

## Kid Chef

Campers will mix up so fun during this week as they explore science in the kitchen while cooking and learning about nutrition. Activities planned for this week include Meet the Chef, a multi-cultural feast, super snack day, STEM science in the kitchen and more.

## Makerspace, Legos, Coding & More

When students enter the Makerspace during this week, they will build, discover, and create using materials and projects like Legos and PLTW activities. Activities will include coding, STEM Boxes, Lego Boost & Cosmo just to name a few!

## Animals and Nature

Campers will explore and discover the wonders of nature and animal habitats during this week. Campers will learn through activities such as nature hikes as well as a Hummingbird STEAM technology project as they create an animal habitat. An added adventure will include a day at the Marshall County Fair!

## Let's Go Team

Teambuilding at its best! Campers will use the teambuilding course as well as play many indoor and outdoor games. This week will be packed with challenges, puzzles, and activity. Teambuilding activities will also include a STEM technology animation project.

## Art Week

Campers will explore the arts through music, drama, and Makerspace centers. Activities will include guest musicians at lunch, the Vintage Theater, and a Paint and Snack.

## So That's My Story

Combining great reads and STEAM activities, campers will build investigate and create projects based on stories they read. Challenges like building the strongest beanstalk, the highest tower, or the best paper airplane will add fun to the week. One story will even challenge campers to an egg drop! Makerspace centers will allow students to use art and writing to recreate the stories and learning.

## Well Who Knew

Discover the science behind toys, sports, games, nature, and more during this fun-filled week. Campers will be invited to share their own "Who Knew?" fun as well.
